OBJECTIVE

Aspiring Software Developer with strong expertise in web development, including React.js, JavaScript, HTML5, CSS, and backend technologies such as Spring Boot, Django, and Flask. Passionate about creating scalable, efficient, and user-friendly applications, with a focus on seamless backend integration. Eager to leverage full-stack development skills to deliver innovative solutions and impactful user experiences.

SKILLS

Programming Languages	C, C++, Java, Python, JavaScript
Software Development	Object-Oriented Programming, Data Structures and Algorithms, Multithreading
Web Development	HTML5, CSS, TypeScript, React.js, Django, Spring Boot, MySQL
Other Skills	Git, Selenium (Browser Automation), RESTful APIs, Debugging, Unit Testing

PROJECTS

MovieMingle (Live Demo)

- Built a community-driven movie recommendation platform using Java (Spring Boot) for backend processing.
- Allows users to create and manage groups, interact with members, and suggest movies, with data stored in MySQL.
- Designed a scalable system to handle dynamic user interactions, ensuring efficient data retrieval and smooth collaboration among community members.

Plant Marketplace (Live Demo)

- Built a web application for buying and selling plants with Java-based backend.
- Integrated RESTful APIs and implemented authentication and secure transactions.
- Features include user authentication, product listings, search functionality, and secure checkout.

INTERNSHIPS

Mevi Technologies Sep 2024 - Feb 2025

Java Full Stack Development *Bangalore*

- Gained hands-on experience in full-stack development, mastering frontend technologies and backend integration with Spring Boot.
- Developed dynamic web applications with Java, Spring Boot, and React.js, ensuring seamless frontend-backend integration.
- Built RESTful APIs, integrated frontend with backend, and worked on database management using MySQL.
